

Read entire pattern before beginning. Use 1/4" seam allowances unless stated otherwise.

DIRECTIONS~

1. Print 2 copies of each of the foundation A and B as indicated on the originals. Trim the foundations and tape together where indicated.
2. Paper piece the A & B foundations starting with black then color strip of fabric 1, black, color strip of fabric 2 and so on. Black (fabric 17) is sewn in between each color palette strip.

FOUNDATION PIECING

Place the first fabric 17 strip wrong side against the unmarked side of the foundation. Make sure it covers the first area 17. Pin to secure the layers.

Place the first fabric 1 strip right sides together against the fabric 17 strip. Angle it so there is at least 1/4" of fabric 1 within the area marked 1 on the foundation. Hold up to light to position or thread a pin through the top point and the bottom point.

Using a short stitch length, machine stitch through all layers along the marked line separating areas 17 and 1. Trim excess seam allowance. Flip the fabric strip 1 open and press.

Repeat this process with the second fabric 17 strip etc.

Remove the foundation paper by bending at the seams a few times to help loosen the paper at the stitched perforations.

3. Sew the sets together. Press joining seam to one side.

Fabric color number indicated in white.

Sew two sets of Foundations A & B.
