

## Making the Kaleidoscope Design

1. Piece together all 8 completed wedges to form an octagonal design. When piecing the center of the kaleidoscope, do not sew through the seam allowances. This will help the center of the quilt lie flat.
2. Add M to the corners of the octagonal quilt as shown in

3. Add K and K(r) to the four corners of the quilt as shown in **Figure # 17**.

**Figure #17**

Finished quilt top, without borders, is approximately 40" square.
