

Sewing the Borders onto the Quilt (cont.)

Use a right angle triangle or the right angle markings on a rotary ruler to mark the miter at each end of these border units.

Working on one corner at a time, place the quilt top on a flat surface, taking care to make sure that the two borders are straight and flat as they overlap (See

Diagram 8

Diagram 8). Place a rotary ruler on the border, positioning it so that a 45 degree line is established from the corner of the pieced area to the edge of the border. Fold and press, or draw a line to mark the 45 degree angle.

Diagram 9

Pin and stitch along this miter line, being careful to match seams of each border strip along the seam line (See

Diagram 9). Stitch on the right side with a blind appliqué stitch, or stitch on the wrong side with a machine or hand running stitch. Trim off excess fabric along seam line, leaving a 1/4" seam allowance. Press.

Finishing the Quilt

Layer the quilt top with batting and backing. Baste together and quilt as desired. When quilting is completed, add binding.

Fabric Yardage Chart

The **Yardage Chart** contains the yardage requirements for the quilt. The quilt may be made in any of the five sizes listed in the chart. The cover illustration shows the Double / Queen size variation of the design. For guidance with fabric placement within the blocks, refer to the diagrams pictured throughout these instructions.
